DEAWING—ARCHITECTURAL and MECHANICAL—As this is the reason for
young unceltaints and others to apply themselves
to the attainment of the greatest aid to the cuismene in their various pusmits, viz. type thorough
knowledge of Geometrical Drawing.

We would call their attention to "Manifie's
Text Book of Self-instruction," being a complete
teamed of Mechanical Drawing, including Geometrical Drawing and Perspective, libertaited with 56
steel plates, and explained in a familiar manner,
readering the attainment of the art casy and agreeside.

From the New York Scientific American. "It is the best work on Drawing that we have ever seen; no young Mechanic such as a Machin-ist, Engineer, Cabinet Maker, Millwright or Car-penter, thould be without it."

From the Baltimore Western Continent. "He, who having thoroughly matered this book camot make any of the ordinary drawings of this kind, may well despair of ever being able to accomplish such a result.

The National Intilligence.

O Indeed, one who patiently and carefully goes through it could not be said, so for as principles and needlods are concerned, any longer to want a master.³²

From the American Railroad Journal.

"It is commended to these best qualified to judge of the nextle, as being the most thorough and complete work of the kind ever published in this country."

(It has received universal commendation from the grees, and we believe that it merits all that has been said in its prace. Price \$2,00.

PARTICULAR NOTICE. We will forward a capy of the above work free of expense, to any part of the Union, on the receipt of three dollars, which may be sent per mail at our

expense.

W. M. & Co. have also published an abridged edition of the above work for the use of Solamila, containing all the principles that are contained in the-large work, libratrated with 48 steel places.—

Particular attention, will be faid to the necommodation and good treatment of passengers.

sectivers. Princetor attention, with the paid to the nonmonolation and good freatment of passengers.

The advantages offered by this Lice over all others are the following, viz: That the ships selected by Harndon & Co, for the conveyance of their passengers, cannot be surprised by any out of the United States; on this point no better evidence can be offered that the fact, of the hughreds of ships despatched by them, not one has ever been lost! Passengers will be brought by this Line at very low rates Parties holding Harndon & Co's Passage Cerificates will not be confined to one ship a month in Liverpool, but have the privilege of embarking in any of the vessels sating every week.

123- Harndon & Co: have Agents in all the principal scapart towns of Ireland, who take charge of their passengers, and protect them from the franch practised upon the inexperienced.

Hardon & Co: wishing to conduct their

principal scenario cowns of fretains, who take charge of their passengers, and protect them from the frauds practised upon the inexperienced.

Harinden & Ca., wishing to conduct their husiness upon principles of fairness and equity, to prevent fraud and deception, have but one price for passage, which in all cases includes Hospital fees and provisions, necording to law: Prepaid passengers alpays have the preference over passengers aving in Liverpool. 173-Those applying by letter or otherwise for Cartificates of Passage, should in all cases furnish the names and agos of the persons sention, with their address in full, containing the name of the town and, mearest post town, and county, together with the address of the person to whose care a letter is usually sent, to enable Massir, Harndon & Ca., of hirerpool, to notify them of the proper, time to Leave home, and turnish other recessary information. 173-Those enquiring for prepaid passengers should giv the number and date of their passage receipt.

113-No other Passenger House, either in this City or Liverpool, is anthorized to advertise, or sell Cartificates for this Line.

Franklin, N. H., March 17, 1848.

Messrs, E. Brinley & Co.—My wife had some reluctance to having hermano appear in print, but knowing that she had experienced great hencefits from this Compound, she yielded all modest objections to a sense of duty, that the public may know whetethey can find a good and safe medicine, that will head many of our diseases. I watehed the operation of this medicine upon my wife with much solicitude, but without any belief that it would pruduce the desired effect. I am, however, now ready lo say that I have grat couridence inthe cleanising and larnling qualities of this syrup; and can safely attent to its value, and would cheerfully recommend it to be patronage of the public.

CONSUMPTION PREVENTED!

CONSUMPTION PREVENTED!

That consumption, when once firmly fixed and sented, can be currel, we much doubt—but that it can be prevented, if the proper remedies are applied in season, we firmly livelove. A slight cold, a gentle cough; a gentle rest decrangement of the nervous system; which neaders the individual sick or well—these are the symptons which herald the approach of the fell decreyer. If these decrements in the mastery, and what was at first only groundlessme and annying, that becomes alarming, and often fatal.

For incipient consumption, we know of no better issuedy than WISTAR'S BLASAM DIC WILD CHERRY. It is wouthing and distressing in its mature, and is alumiably adapted to allay and dissipate the monoying and distressing irritation which as much prevails in this season of the year, caused by colds, causely, and chills, brought on by frequent and sudden changes in the weather. We know of several severe raises which have been indically cuted by the use of this Balsam. Some two years since a friend of ours was suffering under what was thought to be confirmed consumption—a severe cough loss of appetite, night sweets, &c. By the use of the Balsam, he discipled these harming entropendent of the component of comparative good health.—[New England Washingtonian, Boston, November, 1817.

The Florida Indians -The policy of President Taylor in removing the Indiana from Florida by peaceful means, deservos the hearty approbation of the country. It was easy enough to have provoked a way with those savages-a war of swamp light ing, ambuscades and shughter, involving the expenditure of millions of dollars. The last Florida War, which continued for five or six years, and was terminated it: 1811 did not probably cost less than thirty millicus. The sacrifice of life was great, and the hardships of the successive campaigns in the everglades were of the severest and mest trying kind.

Gen. Taylor served in that war. He knew the nature of the country and the character of the Indians, and doubtless drawful the contingency of another war .--By the arrangement recently concluded under the management of Gen. Twiggs the whole Indian population is to be peacefully removed from Florida at an expense to the government not exceeding \$925,000—a run which would not suffice for the outfit and pay of a regiment for one campaign.

We repeat, that the President, by this pseche policy, has rendered a service to the country worthy of its must cordial approval. A good is always achieved by the avoidance of an evil. It may be that the result of such wise forhearance and circumspect sagacity may not allow forth with bril inney-but the patriotic and the observant know how to appreciate it. Balt,

NEW YORK POST OFFICE--The New York Express says there are made up at the Post office in that city, every day, 4,480 thrice a day, making more than 2000 per day. These are deposited in 260 separate lacked bags. Two hundred large bags of newspapers are sent daily, and on Wednesday and Thurs lay 200 extra lings, and on Friday north as many more. The average of letters received at and sent from the effice every day is between 50 and 69,670. of newspapers the number is about 199,-600. There are seventy-six clerks and thirty carriers; six of the former are night clerks, commencing at 5 f-2 P. M., and leaving 5 A. M. The others remain on duty all day until balf-past four in winter and five in sommer, beginning at five A M. This is exclusive of the Foreign and Cacific mail stratuers. We believe in no other office in the world is so much businees so promptly performed.

DEATH OF GEN. McNeil. - Intelligence reached this city, yesterday morning, of the drath of Gen. John McNeil, Surveyor of the Port of Boston. G a. McNoil was a brave and distinguished officer of the war of 1813, and resulted gallant service to his country in the army of the North West .--He Las been Surveyor of this port for about 20 years. His commission expired yesterday, the day on which mtelligence was received of his death. He died in Washington, on Saturday morning, at which place he was briefly sujourning. He died of congestion of the brain. He leaves behind lum a widow and several children, besides a wide eirele of friends -Boston Atlan,

TUESDAY MORNING, FEB. 26, 1850.

WHIG NOMINATIONS.

FOR GOVERNOR HENRY B. ANTHONY, of Providence. FOR LIEUT, GOVERNOR THOMAS WITHPLE,

of Coventry. FOR SECRETARY OF STATE CHRISTOPHER E. ROBBINS, of Providence.

FOR ATTORNEY GENERAL. JOSEPH M. BLAKE, of Bristol.

GENERAL TREASURER, STEPHEN CAHOONE, of Newport.

United States Hotel, PRIBADELPHIA, Peb. 22.

I arrived here list evening, by the night train from New York. One would have supposed that there was to be a great Convention, or something of the kind here, for the train was very long, and the cars were literally crowded; the scats were all ecoupied, and the passage-ways were all filled by passengers who were glad even to be allowed the privilege of standing. On arriving at this house, I found the office full to overflowing, and it was more than mails, two thirds of which are made up half an hour before I could get an opportunity to book my name, and only some half dozen others were fortunate enough to be provided for after myself; the resi had to go elsewhere. I had to occupy a room with another person last night, as did mest of those who came in the night train. I am unable to account for this sadden influx of strangers, unless it is the delight fully mild weather which we are enjoying now, and the determination of people to improve it; the intensely interesting state of affairs at Washington, just new, undoubtedly altracis many there,-ond then, this is generally the most pleasant month at the Capitol.

It is really pleasant to contrast the comparative quiet of this city, with the overlasting noise and confusion of New York. although there is not very much difference in the size of the two places. It is also agreeable to behold in the streets of this city to many of those whom the poet Halleck designates as

In the deab coat of William Penns?

With us in Newport, and in all places of its size; men may be dishonest in endeavoring to accumulate riches; and for this there is no applicay whatever; but in New York it is quite different. There men lie, cheat, steal, and acquire all manner of dishonest habits, from absolute necessity .--Thoy are driven to it by the force of circounstances; as participants in the great strife for existence, as beings in humanity's fearful battle, they are, actually driven to do that which their better nature would revolt from under other circumstarces. All this is lamentable, yet it is nevertheless true; and such must always be the case in a large and crowded city like New York, which is and over must be a sort of omnition gatherum, on the American Continent, for wanderers from all parts of the world.

The story in regard to Mr. Schroeder's rejection was put in circulation by one of the Washington letter-writers of the New eil from whole cloth ; Mr. Schtoeder was ununinously confirmed by the Senate.-This assertion by the Herald only causes me to reiterate what I have been convolted to say, more than once before, that no kind of relinned can be placed upon anything that is stated by that paper; throughout its management there is a wanton disregard of trith, and the idea that it is competent anthorily in matters of news, or that it contains the latest intelligence, is all gas.

Fighty thousand copies, in pamphlet form, of Mr. Clay's recent glorious Comalsowhere. The speech should be read and studied by all classes of persons, over enviable position than he has ever before occupied in the country, and before the world, -- but it has come forth upon the people, alreast like the notes of warning from another world. No honest man can charge Mr. Clay with any interested motives, and his magically elequent voice is now heard like the tones of an honored Sere, giving his last parting counsel to a people whom he loves, and in behalf of a Republic for which his best energies have been expended, in the very spirit of martyr-

Two Union meetings were held in Philadelphia, on Friday night. The Buchanan men met in the Museum and denounced the Wilmot Proviso, and the less altra men met in Independence Squire. Hon. Charles Brown presided at the Maseum meet- the morder of his wife, and was no Thurscrt Tyler, son of the former President. | - Alb Knick.

Intelligence from Ireland je still mote heart-rending. Cultivation seems starnant, and trade is more depressed than in the first of her sufferings. The tide of entigration to the United States has again set in ; but unfortunately for the people, this means is not now left to escape from local tyranny and destitution. The neighbuthood of Inverpool has been visited, during the days of Wednesday, Thursday and Priday, with the most revere storm encountered since 1839. The loss of the J. P. PRANCE.

On and since Manday Paris has been under a stato of siego in consequence of a series of disturbances created by the mob of the Rue St. Martin, St. Antoine, when the police nuthorities came to out down certain trees of liberty planted during the revolution. From the facts, which, by the way. are rather conflicting, it would appear that when the order for the demolition of these last emblems of the liberty of the French people were issued, large crowds assembled round and decorated these dead symbols of liborty, and that the police, acting under orders from the axecutive, proceeded to out them down.

The police were resisted an Monday forcnoon driven back and dispersed by the prople, but a strong body of military advancing the mob was dispersed, with the less of seven wounded, whilst it could not be said. that the troops were molested. Gen. Lamoriciers was hooted in all directions by the mob, but no other offence was offered him-Since then that part of Paris has been in a state of ferment, and no one knows what the next mail may bring. The Moniteur attributes the whole affair to the desires of the president of the republic to concentrate the government of the country in his own person in perpetuity-for now grory man accuses him of a desire to requact the part of his oncle, the warner statesman except-

Considerable rints ensued on both Monday and Tuesday, consequent upon the artests of several persons engaged in the affair at the Ree St. Martin ; since when, however, the whole have been quelled, and about 300 persons had been committed to juil for the part they have taken in the affair. It is eaid, by several journals, that this has been concucted as a coup d'itat on the people for some time past. On Monday, 100,000 men were under atma in Paris, but without occasion. Beyond the fact of this riot, the French news is not of much imporance.

Several steamers left Toulen for Civita Vecclia, to hing back troops from Romo. Wholesale arrests are being made in the departments, without any cause being assigned for the course pursued by the police. Thu arrasis are only made on men of socialist principles.

An attempt is soon to be made by rival factions to amend the constitution.

Paris, Thorsday night, 7th .- The city is quiet. The police are stationed at such of the trees of liberty as are still standing, and do not allow loiterers to congregate. There are no fears of further disturbance, and great reliance is placed on the energy of the government.

BICHMOND, VA., Feb. 22. The occasion of laying the corner stone of the Washington Monument was celebrated to-day. There was a slight fall of snow in the morning, but it afterwards cleared and the weather was delightfully fine. A procession was formed which far surpassed anything of the kind seen in Richmond before, and extended nearly a mile in length. In the procession were citizens from all the currounding counties, and also the military from Petersburg and Fredcricksburg. President Paylor was onthusiastically received and required himself in a handsome manner. At all points the people pressed around him offering their congratulations, and making the oir ring with their loud buzzas. Ho was drawn in an open carriage by four beautiful steeds .--After receiving the Cadets of Yirginia at the Military Institute, he attended a grand dinner which had been prepared for the occasion, and at which the Governor, members of the Legislature, and other dignitaries were present. Excrything passed off without accident.

News your Florida.-The Indians have commenced coming in for the purpose of emigration. Forty eight Indians came in from fort Arbuckle, sixteen miles west of Kissamer River. thentement—I was brought quito law in the summer of 1812, with the Disentery. I sought a physician several times and was dangerously rick, as much so as to believe I must die. I giew worse daily, and was so reduced and weak that I frequently fainted away. For many days I complied with the directions of my physicians. But obtaining my rehel, and hearing of Corbett's Shaker Syrup of Sarsaparila, I was induced to make trial offit.

My little boy about two years of age was also very sick of the same disease at the same time. The first lew does I took to vived me speedily. The pains were speedily allayed and the disease was so early checked that I was enabled to amend work in the course of a week. My little boy was also soon cured, and only part of a bottle was also soon cured, and only part of a bottle was also soon cured, and only part of a bottle was also soon cured, and only part of a bottle was also soon cured, and only part of a bottle was also soon cured, and only part of a bottle was also soon cured, and only part of a bottle was also soon cured, and only part of a bottle was also soon cured, and only part of a bottle was also soon cured, and only part of a bottle was also soon cured, and only part of a bottle was also soon cured, and only part of a bottle was also soon the same disease, which had been increasing on me many days. I resorted again to the Shaker Syrup of Sarsaparilla, and took only a few doese, when again I was early and fully restored to health I know this Syrup cured me, and I recommend to all whe may suffer as I have.

As the Spring returns gnard your
Frenth by using
Dr. Corbett's blacker Compose of Concentrated
SYRUP OF SARSAPARILLA.

This medicine has proved to be most valuable in the following diseases; Chronic laflamation, Jaundece, Weaknees of the digestion of Surgeons, Dyapepsia or Indigestion and Sources of the Monath, Redmonstram and Sar Rheum, Funcional disorder of the Liver, Chronic Emptions of the Skin, and all Servitedous Diseases. Also it is found to be an invaluable remedy for the Erystipelas, and that distressing disorder, the Asthum. It has proved highly beneficial in some cases of Dropsy, Dystintery, Diarrhea.

It will be found by abservation that many of the above disorders, and also that faul disease Phthis Pulmenalis, or Consumption, generally originate in a scrothlows state of the system; and to the such diseases, we must remove the prinary cause. It will likewise be found that diseases of the Liver often originate with persons of a scroth-our shair, and are called liver complaints;

must remove the primary cause. If will likewise be found that discases of the larver often originate with persons of a scratislens habit, and are called fiver complaints; that it is a well established fact that before such liver complaints can be permanently crued this scrotilous disthesis most be removed.

That this is the effect of this Syrup, hundreds of the most competent judges, who have seen and felt the virtue of its cantilive power can bear withers. It is a laxative, disrectivities, and is prepared from the best and most virtuous afteratives of the vegetable kingdom, without the addition of any mineral substance whenever. It is a perfectly safe medicine, and may be taken at any line without regard to weather or exercise.

HOME TESTIMONY—ALWAYS

THE BEST.

Dr. Corbett's Concentrated Syrup of SARSAPARILLA.

John Davis, the sexton of the church of that good man, "FATHER TAYLOR" ithis writes as to the benefits highest received through the virtues of the Sarsaparilla.

"The undersigned, Sexton of the Sarsaparilla of the Rev. Father Taylor, of Buston, states the following facts:—I was born at Popugat, and am now 40 years of age. My parents were healthy, and I was not afflicted by any disease until BEs. I was than residing in Boston. At that time my skin became subject to a humor, which was at last so lad as to alarm myself and friends.—Severe Sures and Abscesses developed themselves. Large Sears are now deeply imprinted on my forchead and either per's of my body by their excentation and indention even into the bone. About twelve-months since my afflictions seemed increasing. Deep scated sores of the limbest character came out or my arms, my head, and even attacked my eyes. I became weak, connected to the use of various Sursaparilla Compounds, but with no beacht. The able and distinguished Physician and Surgeon, James Ayer, M. D. Hanover street, Buston who had weated my ease, at lart advised my using Dr. Corbetts Sarsaparilla.

"I am new happy to state that my general health is fast improving. The Serofulous development on my head, arms, and face are passing away, and not until this momen, have had not before the strength of the received from the grave. To Corbett's Sarsaparilla to I alone autibute this amendment, as not until I had adopted its ure, (and this in minute quantities.) have I for lour years found any relief from suffering."
